

Dear Parent or Guardian,

CESA 10 and UWEC are working to improve the teaching and learning of mathematics. The work to improve mathematics uses videotaped assessments to help adults understand how children make sense of mathematics. Your help with this project by allowing your child to participate in a videotaped mathematics assessment, would help teachers in our school districts become better mathematics teachers.

Selected video clips will be shown to other mathematics teachers to improve mathematics learning and teaching. Mathematics is such an important topic for our children. This is one way we can work towards the success for all children in mathematics.

If you are willing to allow your child to be a participant, we would appreciate you signing and returning this letter. Thank you for your consideration.

I give permission for my son or daughter in the videotaped assessments as described above. I am giving this consent on a voluntary contribution to the educational and research purposes of the materials with no expectation of payment for any future use of the video, and I relinquish any right to claim a share in future commercial returns.

My signature below indicates my agreement.
